Bachelor of Arts, Science and Technology (Hons) - Individualised Major (BAScT) offers an individualised educational option tailored for students with distinct interests and career aspirations that go beyond traditional majors.

Under the “one-on-one” guidance of Academic Supervisors and Industry Experts, students can **customise their transdisciplinary majors** based on their own learning interests. In order to better achieve personal development goals and study needs for solving real-world problems, this program allows students to flexibly choose relevant courses across different faculties and departments, **crafting their individualised learning pathways and cross-disciplinary course combinations**.

Join us to embark on a transformative learning journey that empowers you to shape your unique future!

Curriculum Framework 課程概覽

This future-focused undergraduate programme adopts a highly flexible curriculum structure. The curriculum design includes 36 units of **Solution-based Learning Modules** that span four years of study, enabling students to explore, analyse, and address social problems or global challenges step by step. 36 units of domain courses* and 16 units of free elective courses, equipping students with solid and transdisciplinary knowledge and skillsets to complete their academic research or social impact projects.

*Students, in consultation with their Academic Supervisors, are free to take any course offered by HKBU (except School of Chinese Medicine)

Scholarship 獎學金

Students who put BAScT as a Band A choice in JUPAS, along with having an outstanding academic record and interview performance, will be eligible for a one-off BAScT Entrance Scholarship.
